Investment Objectives and Risk Tolerance

Primary Investment Objective with your associated Risk Tolerance (check one box only) Select the categories that best describe your investment objectives (and if joint that of any co applicants) and the risk that you are willing to assume in this account. Different investment products and strategies involve different degrees of risk. The greater the expected returns of a product or strategy, the greater the risk that you could lose some or all your investment. Investments should be chosen based on your objectives, timeframe, and tolerance for market fluctuations.

Description of Terms

Investment Objective Descriptions

- **Capital Preservation:** The object of capital preservation is to protect your initial investment by choosing investments that minimize the potential of a loss of principal. The long-term risk of this strategy is that returns may not offset inflation.
- **Income:** The primary objective of the income strategy is to provide current income rather than the long-term growth of principal.
- **Growth:** The objective of the growth strategy is to increase the value of your investment over time while recognizing a high likelihood of volatility.
- **Speculation:** A speculative objective assumes a higher risk of loss in anticipation of potentially higher-than-average gains by taking advantage of expected price changes. You recognize and are able to bear the full risk of the loss of some or all principal in such investments.

Risk Tolerance Descriptions

- **Low (Conservative):** I want to preserve my initial principal in this account, with minimal risk, even if that means this account does not generate significant income or returns and may not keep pace with inflation.
- **Moderate:** I am willing to accept some risk to my initial principal and tolerate some volatility to seek higher returns and understand I could lose a portion of the money invested.
- **High (Aggressive):** I am willing to accept high risk to my initial principal, including high volatility, to seek higher returns over time, and understand I could lose all or a substantial amount of the money invested.

There is no minimum amount required if you open an investment account with our firm. We will provide you only brokerage services and we will not monitor your account. Through its clearing firm Hilltop Securities, CSI may provide you with execution, clearing and custody services. In providing brokerage services neither your financial professional nor CSI will provide investment advice in a fiduciary capacity for special compensation. Rather, any investment advice CSI provides in conjunction with brokerage services will be incidental to CSI's primary business as a broker-dealer, which is selling, buying and exchanging securities. It is your responsibility to decide whether or not to follow any recommendation by your financial professional. Neither CSI nor your financial professional exercise discretion over any assets in your account. CSI buys sells and exchanges many kinds of securities, but your financial professional may recommend only those securities he or she is licensed to recommend.

For additional information, please see the Firm's website www.colonialsecurities.com and new customer package.

WHAT FEES WILL I PAY?

The fees you pay are based on the specific transaction conducted and the costs associated with engaging our firm. With stocks or exchange-traded funds, this fee is usually a separate commission. With other investments, such as bonds, this fee might be part of the price you pay for the investment (called a "mark-up" or "mark down"). With mutual funds, this fee (typically called a "load") reduces the value of the investment. Some investments (such as mutual funds and variable annuities) impose additional fees that will reduce the value of your investment over time. Also, certain investment such as variable annuities, have "surrender charges" to sell the investment. CSI's clearing firm, Hilltop Securities may charge additional fees, such as custodian fees, account maintenance fees, SEC fees, transfer fees, and account inactivity fees. CSI may share in some of these fees with HTS. The more transactions in your account, the more fees CSI may charge you. Therefore, CSI may have an incentive to encourage you to engage in transactions.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

For additional information, including a full list of fees charged please see Schedule A of the Correspondent Customer Information Brochure which is included in the New Customer Package.

WHAT ARE YOUR LEGAL OBLIGATIONS TO ME WHEN PROVIDING RECOMMENDATIONS? HOW DOES YOUR FIRM MAKE MONEY AND WHAT CONFLICTS OF INTEREST DO THEY HAVE?

When we provide you with a recommendation, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they affect the recommendations, we provide you. Here are some examples to help you understand what this means:

- Limited Investment Offerings: Our brokerage services and recommendations cover a limited selection of investments. Other firms could provide a wider range of choices.
- CSI has an incentive to buy and sell securities more frequently in order to increase its compensation.
- Revenue Sharing: CSI may earn additional compensation from its clearing firm when its customer use margin or have credit balances in an account.
- Third-Parties: Some mutual funds offered through CSI's clearing firm, Hilltop Securities may charge front end load and/or transaction fees. Investors should be aware that in some cases, there may be a similar mutual fund with no load or an Exchange Traded Fund (ETF) with a lower fee.
